SEWER SERVICE CHARGE (SSC)

1(800)540-0952

The sewage volume is based on the prior Winter Water Use. The 07-08 Rainy Season was 09/21/07-04/14/08. Your lowest 07-08 Daily Average Winter Water Use (WWU) period during the Rainy Season was from 02/08/08- 04/07/08.

The WWU is calculated as:

(20 HCF/ 59 days) X .88 *** = 0000.29830 HCF/day

Your SSC this bill is :

(0000.29830 HCF/day X 64 days = 19 HCF) X \$ 3.27/HCF

Low Income Sewer Surcharge ((SSC = 62.13) X 0.0084)

**SSC
SAMPLE**

Explanation of The SSC

The water and sewer volumes are different because the sewer volume (in hcf) is based on your lowest winter water use during a billing period last winter. This Municipal Services bill is showing the sewer volume as 19 hcf multiplied by \$3.27 for an SSC of \$62.13. The payment of SSC is basically a level pay plan except that the number of days varies from bill to bill.

CITY UTILITY TAX	1(800)215-6277	10.0%	\$	x.xx
SOLID RESOURCES FEE	1(800)215-6177	2 MONTHS	\$	x.xx
STATE ENERGY SURCHARGE	1(800)342-5397	817 KWH	\$.xx
TOTAL L.A. MUNICIPAL SERVICES	\$	xx.xx		

NOTE:

IF THERE IS NO CHARGE ON THE SSC LINE, THEN THAT CHARGE DOES NOT APPLY TO YOU!

*KWH (KILOWATT HOUR) IS 1,000 WATT HOURS **1 HCF = 748 GALLONS
