CERTIFICATION OF DECLARATION

Re: Settlement Agreement and Final Order – Civil Action No. 01-191-RSWL and Civil Action No. 98-9039-RSWL Annual Sewer Odor Hotline Program for FY 2007/08, July 1, 2007 through June 30, 2008.

I certify under penalty of law that the attached Annual Report - Sewer Odor Hotline Program for fiscal year 2007/08, July 1, 2007 – June 30, 2008 was prepared under my direction in a manner designed to ensure that qualified and knowledgeable personnel properly gathered and presented the information contained therein. I further certify, based on my personal knowledge or on my inquiry of those individuals immediately responsible for obtaining the information, that to the best of my knowledge and belief the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information and willful submission of a materially false statement.

***ANNUAL REPORT
SEWER ODOR HOTLINE
PROGRAM***

***Annual FY 2007 / 08
July 1st, 2007 – June 30th, 2008***

Annual Report on the Sewer Odor Hotline Program – July 2007 to June 2008

This report covers the fiscal year 2007/08 from July 1, 2007 to June 30, 2008.

Sewer Odor Hotline Program

Currently, the Bureau of Sanitation receives complaints regarding possible sewer odors through the 24-hour Odor Hotline or other non-hotline sources. A brief overview of each element is as follows:

Hotline

1. 24-hour Odor Complaint Hotline at 1-866-44SEWER or on-line at www.lasewers.org. All phone calls to the odor hotline are answered by operator.
2. 3-1-1 City-Wide Call Center

Non-Hotline

1. Direct contact from the public
2. Council District Office or other referrals

The odor complaints are divided into four category types:

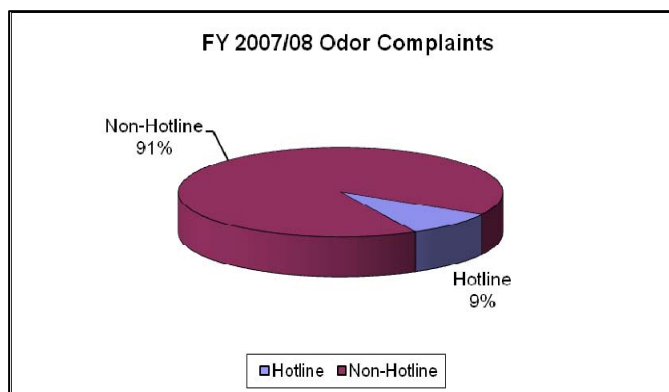

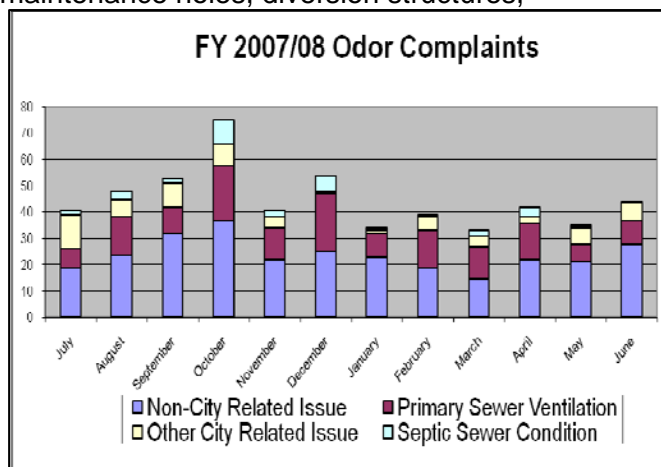

Primary Sewer Ventilation - Sewer related odors released due to positive pressure from maintenance holes, scrubbers, defective trap maintenance holes, diversion structures, treatment plants or other sewer structures.

Septic Condition - Sewer related odors due to septic conditions caused by blockage from grease, roots, and other debris or full, slow moving sewers

Other City Related Issues - Non-sewer related odors from stormwater catch basin, debris basin or channel odors, dirty alley, and standing water. Typically these complaints are forwarded to the Bureau of Sanitation's Wastewater Collection System Division Stormwater Section, Watershed Protection Division, Bureau of Street Maintenance, or other City Bureaus

Non-City Related Issues - These are non-sewer related odors due to owner trouble, dead animal, other odors not involving city facilities, such as Los Angeles County Flood Control District and Sanitation Districts of Los Angeles County. This category also includes no odors detected at time of investigation.

A total of 539 odor complaints, hotline and non-hotline, were received and investigated during this reporting period. In comparison with all odor complaints received, 9% or 49 of the total complaints originated from the 24-hour

Odor Complaint Hotline or the 3-1-1 City Wide Call Center. Attached is a list of all sewer odor complaints received by the Sewer Odor Hotline including, the date received, the location, the date when the initial call back was made, the cause of the odor complaint, the action taken, and if applicable, the date of the follow-up call made. The non-hotline complaints are also added for your information.

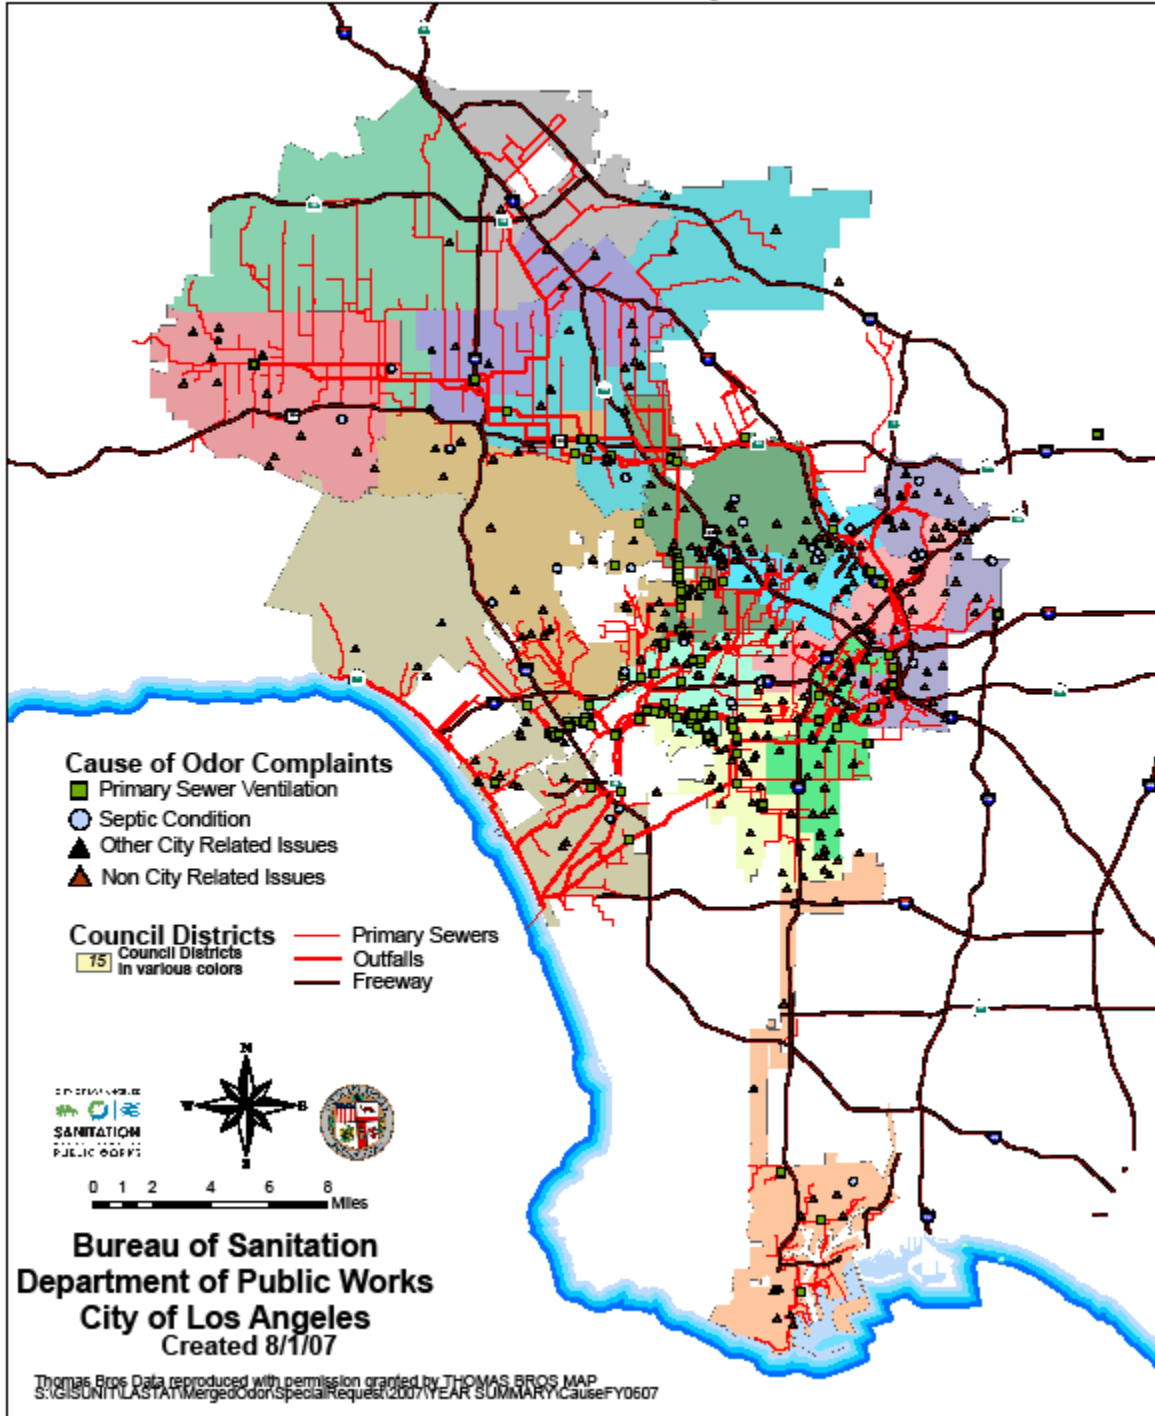

The Bureau of Sanitation investigates all sewer and non-sewer related odor complaints received. Of the 539 odor complaints investigated 34% or 185 were related to the sewer system. 66% or 354 of the total odor complaints received were non-sewer sources such as from stormwater catch basins, dirty alleys, and standing water or owner trouble. (Attached is a graphical representation of the odor complaints investigated throughout the year.)

For all hotline complaints, the Bureau of Sanitation initiated return calls to the complainant to gather feedback on the complaint's response. As indicated in the report, all but one sewer related hotline complainants who responded with feedback were satisfied with the City's effort to address their specific odor concern. The City continues to monitor

odor issues and address and respond to those issues as soon as possible.
