

**RECYCLE** your cartons Los Angeles!

**WHEN THE CONTENTS ARE GONE,  
LET THE CARTON  
LIVE ON**

**WHAT?** Now, you can recycle all your favorite food and beverage cartons. The Bureau of Sanitation now accepts cartons for recycling such as:

**Shelf-stable cartons** (types of products)

- Juice
- Milk
- Soy Milk
- Soup and broth
- Wine

*You will find these products on the shelves in grocery stores.*

**Refrigerated** (types of products)

- Milk
- Juice
- Cream
- Egg substitutes

*You will find these products in the chilled sections of grocery stores.*

**HOW?** It's easy. Just put your clean, empty cartons in your blue curbside recycling bin along with your bottles, cans, and other recyclables.

Here's a simple way to remember:

***When the contents are gone, let the carton live on.***

Spread the word to your friends and family that when the carton package is empty, it still has a second life. Recycled cartons are turned into products like tissue paper, paper towels, napkins, and even building materials.

By recycling cartons, you keep them out of landfills. Thank you for keeping Los Angeles clean and green.
