

Vision Statement

One Water LA is a collaborative approach to develop an integrated framework for managing the City's watersheds, water resources, and water facilities in an environmentally, economically and socially beneficial manner.

One Water LA will lead to smarter land use practices, healthier watersheds, greater reliability of our water and wastewater systems, increased efficiency and operation of our utilities, enhanced livable communities, resilience against climate change, and protection of public health.

Objectives

- **Integrate management of water resources and policies** by increasing coordination and cooperation between all City departments, partners and stakeholders.
- **Balance environmental, economic, and societal goals** by implementing affordable and equitable projects and programs that provide multiple benefits to all communities.
- **Improve health of local watersheds** by reducing impervious cover, restoring ecosystems, decreasing pollutants in our waterways, and mitigating local flood impacts.
- **Improve local water supply reliability** by increasing capture of stormwater, conserving potable water, and expanding water reuse.
- **Implement, monitor, and maintain a reliable wastewater system** that safely conveys, treats and reuses wastewater, while also reducing sewer overflows and odors.
- **Increase climate resilience** by planning for climate change mitigation and adaptation strategies in all City actions.
- **Increase community awareness and advocacy for sustainable water** by active engagement, public outreach and education.
