Normandie Sewer Replacement/Rehabilitation Project

Project Background
The existing Normandie Sewer is a brick sewer that has been in service for over 90 years and has deteriorated over time. Bricks have fallen off and blocked wastewater flows, necessitating repair.

The Project
- Construction is scheduled to start in late spring 2015 and finish in spring 2016.
- The project area is bounded by Slauson Avenue on the north, 68th Street on the south, Haas Avenue on the west, and Normandie Avenue on the east.
- Construction Cost: $8.6 million.

Construction Facts
- About 1.6 miles of sewer with diameters ranging from 30 to 39 inches will be cleaned and rehabilitated. Existing maintenance holes will be rehabilitated and new maintenance holes will be constructed.
- Construction method: Existing sewer will be rehabilitated with Ultraviolet (UV) Cured-In-Place Pipe (CIPP) Liner. Sewer rehabilitation and maintenance hole rehabilitation will be performed mainly through existing maintenance holes, thereby minimizing disruption to traffic. Construction of new maintenance holes will require open-cut excavation.
- Dust control will be provided in all project areas.
- Temporary odor control systems will be installed wherever necessary.
- Enclosures or other barriers will be used in construction areas wherever necessary.
- Flaggers will be used where traffic is impacted.
- Trash pickup, deliveries, access to businesses, and access to residential driveways will be maintained.
- Street parking may be temporarily restricted in some areas. Signs will be posted in advance telling you where and when.
- You will be notified 24-48 hours in advance whenever sewer services may be temporarily interrupted.

Information
Please call the City of Los Angeles Public Affairs Office at (213) 978-0333 if you have any questions regarding this project or visit www.lacitysan.org/lasewers and click on “City Sewers,” then find “Current Sewer Construction Projects,” then find “The Secondary Sewer Renewal Program (SSRP)” on the left side and click on the project name.
