

# PROJECT GREEN LEADERSHIP ENGINEER DAY 2019

LA Sanitation & Environment is inviting local environmental, chemical, and civil engineering students to the Hyperion Water Reclamation Plant to learn about our career opportunities. Hear from recent hires and program managers, gain valuable interviewing skills, and learn about our vast network of exciting projects across the City of Los Angeles. Refreshments will be served. Preference will be given to juniors and seniors, but all are welcome. Space is limited to 100 guests.

## Networking & Coffee

Meet your fellow engineering students and our talented team

## Solid Resources Presentation

Presented by Pablo Hernandez

## Clean Water Presentation

Presented by Amanda Lujan and Emilio Lopez

## Stormwater Presentation

Presented by Stephanie Osorio and Paola Grano

## Regulatory Affairs Presentation

Presented by Jeremy Pathmanabhan

## Financial Management Presentation

Presented by Kayla Ross

## Job Descriptions/Requirements

Presented by Ani Abassian and Laura McAlister

## Resume Workshop

Learn more about appropriate content and presentation.

## Panel Discussion

This is your opportunity to get your questions answered by our engineers!!

## Tours of ELC and Hyperion

Explore the award-winning ELC and the nation's 2nd largest water reclamation plant
